-Always Gifted-

[Hook]

Always gifted, since I was a cub  
Now that I can rap, everybody show me love  
And since I rap, oh yeah I also sing  
And rock I'm doing that, basically everything

[Verse-One]

I was always gifted, always strapped  
I ain't talking steal though cause I don't roll like that  
though I know some people you would never ever  
wanna brawl with  
Yeah they dump shot's you can call em alcoholics  
Any type of talk is cheap unless your talking money  
In my city yeah they love me cause I Chris Brown run it  
Any dough you know I suppose I gotta keep it coming  
Every show I set it off like Queen Latifa in it busting  
All I know is stunting, and all u know is bluffing  
Set a standard every night let it burn like Usher  
Higher than a plane my name Kidd Bravo  
Women see that I treat em sweet, they all wanna follow  
You suckers never there, you know I stay afloat  
Tell em later chuck your deuces they mad they a joke  
But it's alright, critics be talking but it's nothing  
not being conceited Nike been stooped on how I does it  
I'm the bomb like C4, but Wayne ain't drop the fourth  
carter  
Always getting head or tail, I like to call it quarter  
They tell me flow hard, erected while recording  
In the studio, making amends while your snoring  
Ya been sleeping on a kid but I never was a bed  
Like neck & shoulders carry, yup I've always been  
ahead

[Hook]

Always gifted since I was a cub  
Now that I can rap everybody show me love  
And since I sing and rock I'm doing that

Basically everything you know proving that  
You know I do it for the ladies and the money I deposit  
And I'm all about my green cause it's veggies to my  
pockets

Every show I'm show stopping and I love the way she  
watching  
Now later save it hater I see green upon my optics  
So please with mugging me, you know I'm loving that  
I'm speaking Guapenese, now get a load of that

[Verse-Two]

Always this and I'm Always that  
But they never said in public when they saw that cat  
Treat these haters like extras, forget em they invisible  
Wanna know what I am thinking what people consider  
you  
Treat em like an interview, why you even bother?  
Yeah the kid smart... consider me as a scholar  
A lady wanna holler, But I'm blinded how I got her  
Asking her about herself she said she single like a  
dollar  
Since I'm vegan I don't mess with this so called beef  
I'm more about the green instead of beefing you follow  
me  
I'm vegetarian, learn about me for you talk skeet  
I'm quiet but I don't fear another man or part beast  
This is my life, call it on how I'm working  
I do me just like your girl did a minute after flirting  
Considered a blessing, to messes I been a burden  
When it come to being me I'm meant for rapping like a  
turban  
So think about it all, really I'm ready hoping for a rad  
year  
Haters mad cause I'm better off than last year  
Young but I'm ready heir to the throne kid  
While the doubters make the face Home Alone did

[Hook]

Always gifted since I was a cub  
Now that I can rap everybody show me love  
And since I'm that, women they loving me  
You know I love em back, respected humble lee  
You know I'm always, always, ready for success  
Won't stop until the stats arrive saying I'm the best  
the best of the best
