It's all I can do, love  
Push coming to shove  
It's all I can do, love  
I've had enough

It's all I can do, love  
(It's all I can do, love)  
Push coming to shove  
(Push comes to shove)  
It's all I can do, love  
I've had enough

Who, who are you  
To want all of me  
Who, who are you  
Go now  
Scream, scream, say my name  
I'll slap your pretty face awake.

God damn, could you feel an emotion  
All I do is beg, beg  
God damn, could you show what you're made of  
All I do is beg  
God damn could you feel an emotion,  
Show what you're made of  
It's all I can take  
God damn, could you feel an emotion  
I think you love to see me beg.

You cared so  
So long ago  
It's breaking me down, love  
I've had enough

Gotta move on, love  
You've taken it all, love  
Push comes to shove  
And I've had enough

Who, who are you  
To want me to stay  
Who, who are you

Go now  
Scream, scream, say my name  
I'll slap your pretty face  
I'll slap your pretty face awake.

God damn, could you feel an emotion  
All I do is beg, beg  
God damn, could you show what you're made of  
All I do is beg  
God damn could you feel an emotion,  
Show what you're made of  
It's all I can take  
God damn, could you feel an emotion  
I think you love to see me beg.

Who are you to do this?  
Stay or just forget it  
Darling, if you could just  
Scream my name

God damn, could you feel an emotion  
All I do is beg, beg  
God damn, could you show what you're made of  
All I do is beg  
God damn could you feel an emotion,  
Show what you're made of  
It's all I can take  
God damn, could you feel an emotion  
I think you love to see me beg.

God damn, could you feel an emotion  
I think you love to see me beg.

God damn, could you feel an emotion  
I think you love to see me beg.
