He's a king of the talk
He's a cock of the walk
He's a... Don't let him go
He's a crime in the room

How did it start?
Where is your heart?
I know how to get the truth out of you.

Hey baby, hey baby you wanna get up inside of this?
I'll twist your mind like vine
You seem just what you missed
Hey baby, hey baby from your head to your heart to
your jeans
I'm gonna lick you clean
Lick you

I was the one to turn it around
You were the one who wanted it now, didn't ya?
I was the one to turn it around
You were the one who wanted it now, didn't ya?

Out of control,
Deep in your soul
You never thought that you would do it like that
Bitten' the lip,
Chomping the bit
Didn't say you wanted out of this
A volcano on the verge of explosion

Hey baby, hey baby you wanna get up inside of this?
I'll twist your mind like vines
You'll see just what you missed
Hey baby, hey baby from your head to your heart to
your jeans
I'm gonna lick you clean

I was the one to turn it around
You were the one who wanted it now, didn't ya?
I was the one to turn it around
You were the one who wanted it now, didn't ya?

I was the one to turn it around
You were the one,
You were the one who wanted it now, didn't ya?
I was the one to turn it out and freak you down
And lick you clean, didn't ya?

Hey baby, hey baby you wanna get up inside of this?
I'll twist your mind's eye
Hey baby, hey baby you wanna get up inside of this?
I'll twist your mind's eye
(Upside down)

Hey baby, hey baby, you wanna get up inside of this
I'll twist your mind's eye
(Take you to the place you've never been)
Hey baby, hey baby from your head to your heart to
your jeans
I'm gonna lick you

I was the one to turn it around
You were the one who wanted it now, didn't ya?
I was the one to turn it around
And lick you clean

I was the one to turn it around
You were the one,
You were the one who wanted it now, didn't ya?
I was the one to turn it out and freak you down
And lick you clean, didn't ya?

I'm gonna,
I'm gonna lick you
(Lick you)
Lick you
(Lick you)

You were the one who wanted it now, didn't ya?
