No more wishing wells that never come around
No more growing trees without a ground
No more growing trees without a ground

No more wishing wells that never come around
No more growing trees without a ground
No more wishing wells that never come around
No more growing trees without a ground

One to take
(No more wishing wells that never come around)
One to fly
(No more growing trees without a ground)
One to make
Use of all the treasure inside
One too late
(No more)
Act surprised
(Growing trees without a ground)
One to play
And say it was just in your mind

On and on
Hearts burn determined
On and on
Hearts burn determined

One to take
(Breathe in a Neptune sky)
Fly
(Through hands of animals)
Play awake
(It killed the craving for the remedy they made you buy)

On and on
Hearts burn determined
On and on
Hearts burn determined

Here's a placebo
Pick a placebo

No more sapphires burned
No more sapphires burned

No more wishing wells that never come around
No more growing trees without a ground

On and on

One to take
One to fly
One to make
Here's a placebo

No more wishing wells that never come around
No more growing trees without a ground

On and on
Hearts burn determined
On and on
(No more)
Hearts burn determined
(Growing trees without a ground)
On and on
On and on
