When the lights are low
And life is in your face
Whether right or wrong
You'll find a way

'Cause it all fades
Like tears on a page

So it broke your soul
And they took your place
Whether right or wrong
You'll find a way

'Cause it all fades
Like tears on a page
It all fades
Like tears on a page
On a page

I want you to hear
Don't you want to hear it?

It all fades
Like tears on a page, yeah
It all fades
(It all fades)
Like tears on a page, yeah

It all fades
(It all fades)
Like tears on a page

It all fades
(It all fades)
Like tears on a page.
