Give me one good reason why I should trust  
Or see the good in both of us  
When we came with love and left with lust  
When we came with lies we've learnt to trust  
Give me good reason to believe in all I do and all I see  
And all I see

We slip into something more comfortable  
They like you best when you are vulnerable

Just when you thought the world was yours  
When you thought you had it all  
Just when you thought you'd done enough to get  
You through the night  
The night, night  
Just when you thought the world was yours  
When you thought you had it all  
Just when you thought you'd done enough to get  
You through the night  
The night, night  
The night, night  
The night, night

Give me one good reason why I should trust  
In all these things that turn to dust  
When we beg we get down on our knees  
When we're full we want to be empty  
You loved the chase til it slowed down  
You loved the hunt til it hit town  
Til it hit town

Slip into something invincible

Just when you thought the world was yours  
Just when you thought you had it all  
Just when you thought you'd done enough to get  
You through the night  
The night, night  
Just when you thought the world was yours  
Just when you thought you had it all  
Just when you thought you'd done enough to get

You through the night  
The night, night  
The night, night  
The night, night

Who do you trust when all I know is at home in  
All the wars?  
And I've been somewhere, I've been somewhere  
Who do you turn to when the best of everyone you  
Knew has turned on you?  
I've been somewhere, I've been somewhere

Just when you thought the world was yours  
Just when you thought you had it all  
Just when you thought you'd done enough to get  
You through the night, night  
Just when you thought the world was yours  
Just when you thought you had it all  
Just when you thought you'd done enough night, night  
Just when you thought the world was yours  
Just when you thought you had it all  
Just when you thought you'd done enough to get  
You through the night  
The night, night  
Just when you thought the world was yours  
Just when you thought you had it all  
Just when you thought you'd done enough night, night  
Just when you thought the world was yours  
Just when you thought you had it all  
Just when you thought you'd done enough to get  
You through the night,  
The night, night
