Yesterday

Befriends anger with words you say  
Don't let those dying ships sail away  
Promise me you'll never say die

Whispers in the wind

Carry messages to lovers far  
Tales of lost romance and of that  
Missed chance and fleeting hearts

Yesterday

Befriends anger with words you say  
Don't let those dying ships sail away  
Promise me you'll never say die

Ashes in the sand bury

Witnesses to broken hearts  
Scars of lone memories and of those  
Crushed dreams and open arms

Yesterday

Befriends anger with words you say  
Don't let those dying ships sail away  
Promise me you'll never say die  
You'll never say die, you'll never say die

Love songs and tidal waves

Have washed me away  
Love songs and tidal waves  
Have washed me away

Yesterday

Befriends anger with words you say  
Don't let those dying ships sail away  
Promise me you'll never say die, die
