There's a universe inside my mind
Full of secrets that I'm here to find
A million diamonds shower over me
Every star and every galaxy

At the centre of my universe
All the reasons that I walk the earth
I've been looking for you night and day
And I'm ready to come out and play

At the outer reaches of my brain
All the mysteries I can't explain
I'll be leaving here without a trace
And I'm hoping I can find my place

At the centre of my universe
All the reasons that I walk the earth
I've been looking for you night and day
And I'm ready to come out and play
I'm ready to come out and play
I'm ready to come out and play
I'm ready to come out and play
I'm ready to come out and play

[Instrumental]

At the centre of my universe
All the reasons that I walk the earth
I've been looking for you night and day
And I'm ready to come out and play
I'm ready to come out and play
I'm ready to come out and play
I'm ready to come out and play
I'm ready to come out and play
