You are the city and the land  
You are the street and continent  
But don't you know you talk too much?  
Don't you know you talk too much?  
You even don't know what you're talking about

You are the city and the land  
You are the street and continent  
You are a planet and a star  
You know exactly who you are  
But don't you know you talk too much?

Don't you know you talk too much?  
You even don't know what you're talking about

You are the city and the land  
You are the street and continent  
You are a planet and a star  
You know exactly who you are  
But don't you know you talk too much?  
Don't you know you talk too much?  
You even don't know what you're talking about
