"Slip Away"

Visit "[Slip Away](#)" on MotoLyrics.com

I see the door, I see the room
Children playing at your feet
Always there if we should fall
Tending to our every need
I never saw it change
And I never saw you slip away

I see the wall, I see the school
Always waiting for the bell
Seems that we were always friends
Secrets we could never tell
I never saw it change
And I never saw you slip away

Look at the way we are
Does time ever wait for anyone
Taking us way too far
Further than we could ever run

I see your eyes, I see your smile
Love as innocent as snow
Till one day when you were gone
Had to learn to let you go
I never saw it change
And I never saw you slip away

Slip away
You slip away
