Well

Almost naked but I'm here

I am almost naked but I'm here

I've seen the light

That shines on every man

I am almost naked once again

You can take away my hat

You can throw away my shoes

Leave me on the highway

In the depth of the night

Take away my good shoes

And my money

Strip me naked

But I still got me

This is no tale of pain and misery

I'm almost off the edge where I should be

Give me strength

Give me the will

Because I'm almost naked

But I'm still here
