

Kiki Dee**"DOCTOR IN CLOVER"**Visit "[DOCTOR IN CLOVER](#)" on MotoLyrics.com

Doctor, oh doctor, endure me

I need a doctor to cure me

Use your stethoscope now

Here's my heart, show you how

Make your eardrums go pow

Doctor, my favourite prescription

Just as the doctor's description

Get your medicine down

Stop the room going round

I'll take the cure

And that's because you're

The doctor

A doctor in clover could never be

Counted on in an emergency

Doctor, oh doctor, I'm holden

This bug needs your microscopen

Lots of rest is alright

Doctor turn out the light

This patient knows,

And that's why she chose

The doctor

A doctor in clover could never be
Counted on in an emergency
Doctor, oh doctor, I'm holden
This bug needs your microscopen
Lots of rest is alright
Doctor turn out the light
This patient knows,
And that's why she chose
The doctor
This patient knows,
And that's why she chose
The doctor
The doctor
The doctor
The doctor
