I've been spending too much time in my apartment

I've been studying the damp patch on the wall

And the promises you made me at the start meant

Nothing at all

It was going to be the highlight of the season

But it didn't go according to the plan

It seems the honeymoon was over without reason

Before it began

Could've stranded

That's the way you could of planned it better

You sure know how to break a heart

You sure know how to break a heart

I suppose it was a twist of human nature

That made you run away and leave me high and dry

Still its easier to love you than to hate you

I don't know why

Could've stranded

That's the way you could of planned it better

You sure know how to break a heart

Was it really all that clever of you

To treat me the way you did

I would've given away devil were you
When I need it
You sure know how to break a heart
Does it make you feel that good
You sure sure know how to break a heart
Still its easier to love you than to hate you
I don't know why
Could've stranded
That's the way you could of planned it better
You sure sure know how to break a heart
Does it make you feel that good
You sure know how to break a heart
I wouldn't take it if I could
You sure sure know how to break a heart
