I adored the music and all the dancing,
I enjoyed the way that you held me tight,
Hope you don't mind romancing,
I've just got to have an early night.
How I loved the madness of celerating,
And the stars above were a lovely sight,
Sorry but you know I can't be late in,
I've just got to have an early night.
How I swear that I love you so
But I must go
To the church tomorrow my love I'm heading,
You will see that I will be dressed in white,
It just wouldn't do if I missed our wedding,
So I've got to have an early night.
