Everyone should have their way

Even if it's only for a day

Something should be done

So that everyone can be the one

One time

Can't really blame the man

He does the best he can

Leaves it to the other guy

Maybe I'd do the same I don't know why

But something should be done

So everyone can be the one

One time

But you know it's hard in this world

For an easy soul

Giants of the world taking it all

Can't really blame the man

He does the best he can

Looking for an easy way

Maybe I'd do the same I'd do the same

Something should be done

So everyone can be the one

One time

But you know it's hard in this world

For a working girl

Giants of the world taking it all

Yeah it's hard in this world

For a working man

Giants of the world making a plan

But everyone should have their way

Even if it's only for a day

Everyone should have their way

Even if it's only for a day

Everyone should have their way

Even if it's only for a day
