Easy to see and simple to know

Which is a fire

And which is a glow

Harder to tell these two apart

Can you tell me

Which is the soul, and which is the heart?

And if you're feeling hungry

Heart is a food

And soul is a flavour

That makes it taste so good

Heart is a substance from which we're all made

And soul is a feeling

It's in the way that you play.

And I love you heart and soul

Take me now before I lose control

I love you with my hands

You're so good to me and you understand

And I love you with my arms

You protect me, keep me safe from harm

And I love you complete and whole

Heart and soul.

Heart is a beat that keeps you alive

And soul is a hope gonna help you to survive

And if you feel afraid heart is a spark

And soul is a constant light and it's shining through the dark.

And I love you heart and soul

Take me now before I lose control

I love you with my eyes

They look for you each morning, you're my dawn surprise

I love you with my body and my mind

You're good to me, you're gentle and you're kind

Maybe I love you too much

But even that's not enough

I love you heart and soul

Take me now before I lose control

I love you complete and whole

Heart and soul, heart and soul
