Yesterday I said goodbye but now today

I want to sit right down and cry

Oh wait a long

Don't you know I need you

Wait a long

I was only kidding last night

A day alone and I can't see

Just how much you really mean to me

Oh wait a long

Don't you know I need you

Wait a long

I was only kidding last night

I know I haven't got the right to change my mind But if  
you love me, really love me

I know you'll understand

I didn't really want to part

My pride was talking when it should have been my  
heart

Oh wait a long

Don't you know I need you

Wait a long

I was only kidding last night

I know now that I haven't got the right to change my  
mind

But if you love me, really love me

I know you'll understand

I didn't really want to part

My pride was talking when it should have been my  
heart

Oh wait a long

Don't you know I need you

Wait a long

I was only kidding last night
