Free and I'm tamed is how you've grown

Settling down ain't your nature roots you've never
owned

I need you but I ain't such a child

Think I could cage a bird born born to be wild

Johnny Raven

By and by

You're going to leave my nest

Another nest to try

Johnny Raven

I believe your love

And you're going leave me

When your restless heart says fly fly fly

Me I'm a girl few will love so deep

Ain't it a shame I wonder one day I can't hold to keep

You're hungary for new thrills and stray you will

You got anew and need one bird never can fill

Johnny Raven

By and by

You're going to leave my nest

Another nest to try

Johnny Raven

I believe your love

But you're going leave me

When your restless heart says fly fly fly

Johnny Raven

By and by

You're going to leave my nest

And I'm going to die

Johnny Raven

By and by

You're going to leave my nest

And I'm going to die

Johnny Raven

By and by

You're going to leave my nest

And I'm going to die
