C'mon C'mon C'mon C'mon

Little frozen one I hate see you grieve

Nobody told you, you needed to believe

Little frozen one the damage has been done

Nobody told you, you needed to belong.

But I heard you sing about the sun

Though you ve never seen it shine

And I heard you sing about the rain

How sometimes it falls

So you gotta build a wall, around you.

Little frozen one I know you could be fine

But nobody told you you still got so much time.
