You have no cause to doubt what you see

Close your eyes and set your feelings free

Who have the right to say that you're wrong

Open your heart and let our love grow strong

I want our love to shine down on me

Shining down from up above you are part of me

I fix my sights and I walk without fear

The road may be dark but my direction is clear

Like a neon sign in a distant town

I'll watch you shine when the lights go down

'Cause I want our love to shine down on me

Shining down from up above you are part of me

I want our love to shine

I want our love to shine

People too scared to say what they mean

Gonna wash their hands to keep their conscience clean

In search of a flame that some call desire

They fly into the light and right back into the fire

But I want our love to shine

Oh I want our love to shine

I want our love to shine

I want our love to shine

I want our love to shine down on me

Let it shine

Let it shine

Let it shine

Let it shine
