One time coming down a railroad track  
Starting to get our confidence back  
Living our dreams all over again  
You and I can make it to the very end  
Nothings going to stop us now  
We've got today tonight and forever  
Nothings going to stop us  
Nothings going to stop us now  
Nothings standing in our way  
We've got a brand new world to believe in  
Nothings going to stop us  
Nothings going to stop us now  
Long time sailing on stormy seas  
Trying to tell each other we want to be free  
Let's take a chance we just might win  
We're the kind of people who never give in  
Nothings going to stop us now  
We've got today tonight and forever  
Nothings going to stop us  
Nothings going to stop us now  
Nothings gonna lead the way

We're going to make it without any problems

Nothings going to stop us

Nothings going to stop us now

We've got a destiny

Our future is clear

We're more more than a fantasy

Nothing can stop us

Nothing can stop us

Nothings going to stop us now

We've got today tonight and forever

Nothings going to stop us

Nothings going to stop us now

Nothing can stop us now
