Love's a puzzle love's a puzzle confusing as can be

But work it out and you'll discover the beauty of love's
mystery

Be my love come let the world begin

Be my love love's puzzle we can blend

Be my love you fit the pieces in

Somehow

Jagged edges such is heartbreak can drive you out of
your mind

They don't seem to fit but don't you quit they're part of
love's design

Be my love come let the world begin

Be my love love's puzzle we can blend

Be my love we'll fit the pieces in

Right now

Be my love come let the world begin

Be my love love's puzzle we can blend

Be my love we'll fit the pieces in right now
