"SMALL TOWN"

Visit "[SMALL TOWN](#)" on MotoLyrics.com

When I walked with my baby
They saw us every time
They all knew I loved my baby
And that he was mine
But now he's not around
Someone else I know he's found
'Cause it's a small town
There's no where to hide
In a small town
When you're hurting inside
Yes a small town
Knows it when you've lost your pride
When I cried with my baby
They knew it every time
And when I loved my baby
They knew things were fine
But in such a little place
They'll see it on my face
'Cause it's a small town
There's no where to hide
In a small town

When you're hurting inside
Yes a small town
Knows it when you've lost your pride
No little bird can lock herself away
From broad street down to main street
I can hear what people say
I have lost my love today
'Cause it's a small town
There's no where to hide
In a small town
When you're hurting inside
Yes a small town
Knows it when you've lost your pride
Yes it's a small town
There's no where to hide
In a small town
When you're hurting inside
