Who are you to try and try my patience
Ignoring me constantly
I'm the type that likes good conversation
I'm gonna talk to you until you talk to me.
I might have seen you walking down a side street
And wave to catch your eye
But even though you know that our eyes meet
You just look away and pass me by.
Whatever I ask of you, you deny it
I don't even get a chance to try it
You give me your reason I just don't buy it
What's going on? I wanna know what's going on
Inside of you.
The time has come to answer all my questions
Consider it thoughtfully.
Now I'm the type that's open to suggestion
But what is good for you might not be good for me.
I've worked out a system
To do the things I want to do:
If you'll sit back and listen.....
You can take it.

Step by step, bit by bit

Take it easy, baby, show me you're liking it

Step by step, piece by piece

If you take it slowly you'll get your release.
