Sometimes it amazes me

How strong the power of love can be

Sometimes you just take my breathe away

You watch my love grow just like a child

Sometimes gentle sometimes wild

Sometimes you just take my breathe away

Well it's too good to slip by

It's too good to lose

It's too good to be there

Just to use

I'm gonna stand on a mountain top

And tell the news

That you take my breathe away

Your beauty is there in all I see

And when I feel your eyes on me

Ooh don't you know you just take my breathe away

My life is yours my heart will be

Singing for you eternally

Ooh don't you know you just take my breathe away

Well it's too good to slip by

It's too good to lose

It's too good to be there
Just to use
I'm gonna stand on a mountain top
And tell the news
That you take my breathe away
Sometimes it amazes me
How strong the power of love can be
Sometimes you just take my breathe away
My life is yours my heart will be
Singing for you eternally
Ooh don't you know you just take my breathe away
Well it's too good to slip by
It's too good to lose
It's too good to be there
Just to use
I'm gonna stand on a mountain top
And tell the news
That you take my breathe away
