You see his face across the room

A fantasy comes true

And the dream you had so well inside

Is staring back at you

You know its now or never time

So you move in for the kill

But is not so easy moving in

When your heart is standing still

But the full energize

And you're back in the race

And the air is alive

With the thrill of the chase

And the end is in sight

You've been waiting for so long

Now the chase is finally on

Run for your life

Get up and run

The chase is finally on

Is finally on

You see her face across the room

And you know without any point

That you hold a dream inside her eyes
But the dream she holds is yours
The looks that pass between them
Give so many little clues
And it seems that you've got two choices now
You can fight or you can lose
So with all of your might
You get back in the race And you could win the fight
Or fall flat on your face
But the end is in sight
And the feeling still so strong
And the chase is finally on
Run for your life get up and run
Run for your life get up and run
Especially on
Run for your life get up and run
Run for your life get up and run
Run for your life get up and run
Get up and run
Get up and run
Run for your life get up and run
Run for your life get up and run
Run for your life get up and run
