There he goes, see him,

He doesn't seem to know I'm there or even care

He's holding her now like he once held me

See him, there he goes

He must know that I still love him

More than I can say, in everyway

I need him so much I don't care anymore

See him, there he goes

My friends tell me I'm making a great big fool of myself

How could they, they don't know

What it's like to be by yourself, on the shelf

I will wait, for him forever and a day

I hope and pray that he'll find his way to my arms again

But till then there he goes

My friends tell me I'm making a great big fool of myself

How could they, they don't know,

What it's like to be by yourself, on the shelf

I will wait, for him forever and a day

I hope and pray that he'll find his way to my arms again

But till then there he goes

There he goes
