You came to stay

Who brought a sweet bouquet who stayed

I'm falling into your gaze

Oh my friend I pray

You came,

you came

You came and changed the day

you stayed

I wish you well

I do I do

When you go by

(chorus)

Until we meet again oh my friend I'll stay

Until we meet again memories I'll save

Until we meet again I'll pray

Until we meet again.

Wish you well I do I do
