Walking  
My head in the air  
Each step I take  
Is a step over trouble  
Emotions are gone  
There's no analyzing  
Time can go endlessly on  
All is alive  
That I see before me  
The more I know  
The more you can show me  
Sky over land  
And land under ocean  
Time can go endlessly on  
For at time  
I need someone  
To take me anywhere  
On my own  
I wander  
I have no need to care

Walking  
Nobody passing by  
Each step I take  
Is a step over troubles  
Gently I fly  
Through clouds of emotion  
Time can go endlessly on
