"WITH A KISS"

When the world's unkind to me

People pay no mind to me

I remember only this

In a word you'll fix it with a kiss

Just as long as you are near

I can smile through every tear

When I need some happiness

I know you will bring it with a kiss

Every time you bring me close to you

I forget the selfish things that people put me through

When the day is sad and long

And the plans I have go wrong

I don't care I think of this

You will make me happy with a kiss

I forget the selfish things that people put me through

When the day is sad and long

And the plans I have go wrong

I don't care I think of this

You will make me happy with a kiss

With a kiss

With a kiss

With a kiss
