I went out a'wandering
Beneath an unknown sky
The heavens all shook violently
He caught my eyes
Strange foot fell
It struck me to the core
My heart became a single flame
It wanted nothing more
Stranger, enter from the east
Stranger, step inside this place
Oh, I'm lonely
All lonely
The clock became a bullet hole
Cruel and unking
It hurt me with it's second hand
Alone another night
Stranger, enter from the east
Stranger, step inside this place
Blue, is that you (???)

Knocking on my door this time
Blue, only true for someone else
There's no room inside this heart of mine
My heart has four empty rooms
Three wait for lightning
And one waits for you
I must have you all to myself
Feel the full weight of your skin
I'll hollow out my insides
To place you in
Stranger, enter from the east
Stranger, step inside this place
Oh, I'm lonely
All lonely
Ohhhh.....
