

Kilcher Jewel "This Little Bird"

Visit "[This Little Bird](#)" on MotoLyrics.com

There's a little bird somebody sent
Down to the Earth
To live on the wind
Blowing on the wind
And she sleeps on the wind
This little bird, somebody sent
Light and fragile
And feathered sky blue
Thin and graceful
The sun shining through
She flies so high up in the sky
Way out of reach of human eyes
Light and fragile
And feathered sky blue
Thin and graceful

The sun shining through
She flies so high up in the sky
Way out of reach of human eyes
Light and fragile
She's feathered sky blue
Thin and graceful
The sun shining through
And the only time that she touches ground
Is when that little bird, little bird
Is when that little bird, little bird
Is when that little bird, dies
