On one hand (hand) I do believe you love me
But on the other hand I'm not so sure
That everything is bubbly
It's been a while since we fell out
And now we're cool (cool)
But I can't do nothing else for you
You heard me once before
And now I don't want your

Late night phone conversations (ooh)
Fussing, fighting, headaching (ooh)
I can't trust you with my heart anymore

Just like that you broke my heart (broke my heart)
Just like that we fell apart (fell apart)
Just like that I'm over it
Baby just like that, (oh) let's just be friends
Just like that you broke my heart
Just like that we fell apart (fell apart yea)
Just like that I'm over it
Baby just like that, Baby it's like that

Yea, I'm single, free and happy (oh oh)
I got no time for playing games with you
So boy don't even ask me
If you can wine and dine me
Just like old times (ooh)
Cause I'm not even trying to press rewind
You heard me back before (no no no)
Now I don't want your

Late night phone conversations
Fussing, fighting, headaching
I can't trust you with my heart anymore

Just like that you broke my heart
Just like that we fell apart
Just like that I'm over it
Baby just like that, let's just be friends (can we be friends)
Just like that you broke my heart
Just like that we fell apart

Just like that I'm over it (I'm over it)
Baby just like that, Baby it's like that (baby)

I can't go back (anymore)
Cause I can't forget how you hurt me so (bad before)
I really feel for you but baby I jus (can't ignore)
The way I feel about you
Just ain't the same (anymore)
And just like that

Just like that you broke my heart (oh yea)
Just like that we fell apart
Just like that I'm over it (yea)
Baby just like that, let's just be friends (let's just be friends)
Just like that you broke my heart (yea)
Just like that we fell apart (we fell apart)
Just like that I'm over it (I'm over it)
Baby just like that, Baby it's like that (yea)

Just like that you broke my heart (you broke my heart)
Just like that we fell apart (we fell apart)
Just like that I'm over it (ohh)
Baby just like that, let's just be friends (let's just be friends)
Just like that you broke my heart
Just like that we fell apart
Just like that I'm over it
Baby just like that, Baby it's like that
