VERSE 1:

wow what a shock to see
you over hear talking to me
i dont know what you think
but you not embarrassing me
ever since he quit you
you act like you got something to prove
but im calm and im cool
i think you know what you better do

CHORUS:

keep it moving
just say hi
keep it moving
or goodbye
keep it moving
you aint even gotta be fake
keep it moving
im too clean
keep it moving
for the scene
keep it moving
and he aint feeling you anyways
keep it moving
cause, were in love
keep it moving
and my baby aint going no place
keep it moving
and im cool
keep it moving
long as you
keep it moving
dont be all up in my face

VERSE 2:

do you think
i dont see
you whispering and looking at me?
on the side
trying to shine
but im the only one that he sees

suddenly without a doubt
he wasn't feeling what your about
so its clear why im here
if you dont know than figure it out

CHORUS

BRIDGE:

it would be better for everyone if we just pretend that
we never met
the sooner you get moving the sooner we can forget
just say hi or goodbye
you aint gotta be fake with me no more
while you was drooling and starin at me aint nobody
hearin you but your crew
cause he aint even paying attention to you
just say hi or goodbye
you aint gotta be fake with me no more

REPEAT CHORUS UNTIL FADE.
