"Who I Am"

[Verse 1:]

Sitting here reading this old love letter
Hoping that it will make me feel better
My friends tell me that I should forget it
That I should get over you

But they don't understand, they don't get it
It's something in my heart that won't let it
All though your gone, I'm still committed
That's Who I Am

[Chorus:]

Who I Am, How I Live
It all means nothing without you
What I Do, All I Give
Everything I do is about you!

Who I Am, How I live
It all means nothing without you
What I Do, All I Give
Everything I do is about you

[Verse 2:]

Pictures of your face make me reminisce
Of you eyes, your smile, and your kiss
And nobody ever make me feel like this

Where would I be without you
Probaly lost, lonely and confused
All I give and what I do,
Is all because of you

[Chorus:]

Who I Am, How I Live
It all means nothing without you
What I Do, All I Give
Everything I do is about you

Who I Am, How I Live
It all means nothing without you

What I Do, All I Give
Everything I do is about you

[Bridge:]

Can you tell me where we went wrong?
Where did we go wrong?
Baby Can you please come home?
Don't leave me all alone
I'm waiting, right here where you belong

I'll be waiting for you
Right here, waiting on you
I'll be waiting for you
Right here yeah, cause your all I am

[Chorus:]

Who I Am, How I Live
It all means nothing without you
What I Do, All I Give
Everything I do is about you

Who I Am, How I Live
It all means nothing without you
What I Do, All I Give
Everything I do is about you

Who I Am, How I Live
It all means nothing without you
What I Do, All I Give
Everything I do is about you

Who I Am, How I Live
It all means nothing without you
What I Do, All I Give
Everything I do is about you
