I've been in a rut
Back and forth enough
Heart like the wheel
Without you around
So uncomfortable is how it feels

Every time you're near
Trouble disappears
Under the ground
But when you go too far
Silver clouds'll start hanging around

And I know why
Try to run
But I keep on
Coming back
Full circle
And I can't jump the track
Can't let you go whoa
Tied to one
So I keep on
Coming back
Full circle
'Cause I know you'll come around
You'll come around

Skipin' down a broken path
How long can I last
Please let me know
Where's the finish line
'Cause I've got to find somewhere to go

I don't want to hear
People interfere
What do they know
What I feel inside
When I'm up all night
Needing you home

I don't know why
Tried to run
But I keep on

Coming back
Full circle
And I can't jump the track
Can't let you go
Tied to one
So I keep on
Coming back
Full circle
'Cause I know you'll come around
You'll come around

'Cause I know you'll come around
You'll come around

I'll keep on runnin'
Til we meet in the middle
I'll put pride aside
And I'll give just a little
There's miles to go but we both know
That we'll make it

And I know why
Tried to run
But I keep on
Coming back
Full circle
And I can't jump the track
Can't let you go

Tied to one
So I keep on
Coming back
Full circle
'Cause I know you'll come around
You'll come around

Yeah, I know you'll come around
You'll come around

Yeah I know you'll come around
You'll come around
