Well no one told me about her
The way she lies
Well no one told me about her
How many people cried

Well no one told me about her
The way she lies
Well no one told me about her
How many people cried

But it's too late to say you're sorry
How would I know?
Why should I care?
Please don't bother to find her
She's not there

Well no one told me about her
Well no one told me about her
How many people cried

But it's too late to say you're sorry
How would I know?
Why should I care?
Please don't bother trying to find her
She's not there
She's not there
