So here we go
It's making me sick again
She's beautiful
Yeah she will be in your most perverted dreams
So, let it go
Or take it to the next level
Man, bring it on
If you've got something to say then step up to the plate

Big shot, yeah
(Oh, I want to be with you)
Big shot, yeah
(Oh, I want to be with you)
Big shot

Oh, at seventeen
They all hated her and me
That skinny thing
Well she will be in all of your magazines
So, think about it
And watch from your mobile home
Cause she's moving out
Oh God, I've waited so long

Big shot, yeah
(Oh, I want to be with you)
Big shot, yeah
(Oh, I want to be with you)
Big shot, yeah
(Oh, I want to be with you)
Big shot, yeah

Take it 'til your dreams to come true
Sometimes well, I hope they do

Big shot, big shot, big shot
Big shot...
