i want will like you  
today i know all my proper passionate  
i'll kill you myself

she on flowers ball  
you recognize my charm  
i'm just passionate  
but i'll kill you myself  
the cannons are here

don't breathe my air  
don't breathe

all life has gone absurd  
one flower's broke  
but i know that god is gone  
i've taken his job

you find us we're growing old  
yes you're just --missing lyric--  
but i know god is dead  
i've stolen his house  
i've claimed it myself

don't breathe my air  
don't breathe my air  
don't breathe

don't breathe my air
