

## Kill Hannah

### "Good Night Good-Bye"

Visit "[Good Night Good-Bye](#)" on [MotoLyrics.com](http://MotoLyrics.com)

You say "I think I am leavable  
That he got drained  
all the colors have left"  
Oh but you know right now  
You'd do it again  
Cause I waited my whole life  
You said "I made him so colorless  
And that the air just got so cancerous"  
Deep in the right school play  
With thee wrong scene  
I guess it changes everything

So we're on time  
To say good night  
But we know that  
It means good-bye

Say that "It made him so colorless  
That the air just got so cancerous"  
I bet you know right now  
You'd do it again  
Cause I waited my whole life

So we are on time  
To say good night  
But we know that  
It's like good-bye

You're all that I have now  
So don't never let me go  
You're all that I have now  
So don't never let me go  
You're all that I have now  
So don't never let me go  
You're all that I have now  
So don't never let me go  
You're all that I have now
