I want a girl with lips like morphine  
Knock me out every time they touch me  
I wanna feel a kiss just crush me  
And break me down

Knock me out!  
(Knock me out)  
Knock me out!  
(Knock me out)  
'Cause I've waited for all my life  
To be here with you tonight

I want a girl with lips like morphine  
Blow a kiss that leaves me gasping  
I wanna feel that lightning strike me  
And burn me down

Knock me out!  
(Knock me out)  
Knock me out!  
(Knock me out)  
'Cause I've waited for all my life  
To be here with you tonight  
Just put me on my back  
Knock me out again

I want a girl with lips like morphine  
Knock me out every time they touch me  
I want a girl with lips like morphine  
To knock me out  
See I've waited for all my life  
To be here with you tonight  
Just put me on my back  
Knock me out again
