Standing here  
In the ballroom as  
The dancers twirling everything  
To the marching drums  
Lying here  
In your yard alone as all the  
Old war pilots have gone  
It's how that little bird heart got so cracked  
But they'll sleep deep tonight  
Oh yer, Wont they for sure  
Well we'll just be sleepwalking these dirty streets

Yeah, better eject  
Coz that's as we are, nerve gas over us  
Just leave that nerve gas on

Lying here in your yard alone  
As all all the paratroopers dropped  
It's how that little bird heart got so fucked

I wont sleep deep tonight  
Oh no, I can't for sure  
I can't sleep deep tonight

Coz that's how we are, nerve gas over us  
Just leave that nerve gas on

I wont sleep deep tonight  
Oh no, I can't for sure  
I can't sleep deep tonight

Fucking just can't
