She fell like a meteor onto the planet  
And said, "Your world, it brings me down  
I feel like an animal  
And I don't think I get it  
But one day I'll make you proud"

It's raining all the time  
It's raining all the time  
It's raining all the time  
I'll need you by my side  
When I leave it all behind  
It's raining all the time

She crashed like an atom bomb  
And said, "We can't live forever  
One day I'll see you around  
I dreamt that we disappeared  
So I just gotta do it  
So no one can touch me now"  
It's raining all the time  
It's raining all the time  
It's raining all the time  
I'll need you by my side  
When I leave it all behind  
It's raining all the time

She said: I hate the rain  
But here it comes again  
She said: I hate the rain  
But here it comes again

I hate the rain  
Here it comes again  
I hate the rain  
Here it comes again

There's something in my head  
I can't get off my mind since you've been gone it's  
raining all the time...
