The face of Nemesis  
Under pandemonium's heat  
Parched my yearning whisper  
In this world of deceit

To lie, to cry, they die  
To drown in their well of sighs  
All their pain bears their name  
Ignorance dies by its own lies

Tears of indignation  
Crying under Apollyon's sun  
In faith for love  
Underground, a dream apart

Flesh from soil  
Disparate, no less the same  
Sift my tears  
The lasting spring

We were raised to fade  
To deluge by carnal claims

To lie, to cry, they die  
To drown in their well of sighs
