Break the line and light it up  
Front to the back, put your fucking hands up  
Stumbled passed the bottoms up,  
Now it's time to give it to the people that I love

The nightlife gave me double vision  
One day I'll figure out the day I'm coming home  
So I commit to this decision,  
and I remember them from everywhere I go

Every time I close my eyes,  
Hold them open stay awake  
And in this plan that I devised,  
I hope I don't make big mistakes  
But it's a chance we're all down to take

[Go!]

So we could take on the time zones, or maybe  
take a stab at the stars, oh, baby  
Bring on the bigger lights  
Pick out the stars that are burning right now

So let me take you higher and higher  
How ever high you desire  
The speed of sound you admire  
Burning brighter than fire

Make it happen while we're young  
Somehow I made you listen while I'm twisting up my  
tongue  
Behind the lights are blue and red  
But I'm not even looking, I can worry when I'm dead

But we're alive, me and everybody  
We're hopeful, catalyzing the scene  
The world is mine, wasn't given to me  
It's our sound, go water yourself down

Every time I close my eyes,  
Hold them open stay awake

And in this plan that I devised,  
I hope I don't make big mistakes  
But it's a chance we're all down to take

So we could take on the time zones, or maybe  
take a stab at the stars, oh, baby  
Bring on the bigger lights  
Pick out the stars that are burning right now

So let me take you higher and higher  
How ever high you desire  
The speed of sound you admire  
Burning brighter than fire
