What have I done to make you feel this way about me,
How do I explain the way you touch my soul, WTF WTF
WTF.

It can only be told as a story the ending is not as yet
finished, The beginning is shouted out loud.

What have I done to make you hurt me,
Trees and bird songs annoy me, But they make you
feel free, WTF WTF WTF.

Why do I target your soul movement I always have
looked up to you,
What have you ever done for me.

I will make you pay for all of this, I'll cross the sea to
chase you,
Just to make you, Happy to make you love me again,
WTF WTF WTF.

And what did I ever do to make you feel this way...
