Days you don't know who you are
You feel like all day your in danger
Everyone around's a stranger
The tide has pulled you out too far
I will be your ocean ride my wave
Let me be the one to save you
When your drowning, drowning
Under water

Call on me I'll cradle you in my arms
I won't let you down, not now
Before me, before me you were numb
Fall on me when all your senses fail you again
Fall on me, Call me
I'll be there, I'll be

Brush the burdens off your shoulders
I am here to ease your pain
I will cover you from the pouring rain
It's the heart that matters most
Broken down without a reason
I will pick up all of your pieces
When you feel, you feel like life has taken over
Well we're safe, safe, safe when we're together

Call on me I'll cradle you in my arms
I won't let you down, not now
Before me, before me you were numb
Fall on me when all your senses fail you again
Fall on me, Call me
I'll be there, I'll be

Let the moment take you the moment take you
When the walls start closing in
Let the moment take you, come and save you
But these walls make you hold things in
Same old story, broken hearted
A fact you'll end up back where you started

This emptiness inside of you,
Like you don't know what to do
Things may not go as planned.

Well it's all out of your hands
That's what I'm here for,
I will make you better, better, better

Call on me I'll cradle you in my arms
I won't let you down, not now
Before me, before me you were numb
Fall on me when all your senses fail you again
Fall on me, Call me
I'll be there, I'll be
