

Kill The Young "Biting The Bullet"

Visit "[Biting The Bullet](#)" on MotoLyrics.com

I need to bite the bullet, it's foolproof
What the hell can go wrong?
Now I've cursed it, and burst it
Another thing to prolong
Nothing to it, it's bullshit
I'm hiding from my mistakes
Can't you see that, it's all there!
Power to the listeners!
All you need to know in a little packet
Now society is a little slack, yeah?
Here's the story, it's boring
Climbing down the big pipe
It's a nightmare, enjoy it

Stories for the grandkids
They'll enjoy it, the best times, the bad times, the good
times
It's so dull now, pretend then
Sometimes I need reminding
All you need to know in a little packet
Now society is a little slack, yeah?
All you need to know in a little packet
All you need to know in a little packet
Now society is a little slack, yeah?
All you need to know in a little packet
