I'll cut your tongue right out of you  
And then I'll eat your wedding ring  
No roundabouts, no swings  
You're always cold  
You're always cold  
Stick two fingers up at you  
Spit in your face like you do  
Then calm down, break through  
You're always cold  
You're always cold  
You're always cold  
I love you to infinity  
It's nothing but a television show  
You're the best I could ever have  
But please remember its half and half  
I want you out of my house now  
Fuck off back to Middlewich  
Grab your bags and don't come back  
I'll see you soon  
I'll see you soon

Sometimes everything is wrong  
So disregard my smile  
Someday this will end and  
We'll both be old  
We'll both be old  
I love you to infinity  
It's nothing but a television show  
You're the best I could ever have  
But please remember its half and half  
You're the best thing that I ever had  
Remember that I want you back  
You're the best thing that I ever had  
Remember everything we had  
I love you to infinity  
It's nothing but a television show  
You're the best I could ever have  
But please remember its half and half
