I used to think life was just a waste, so many limitations
but there's so much around to taste but change and
motivation turned my life around all the time I though I
lost has suddenly been found Chorus:Its time to
change no one can do it for you It's time to change get
up off your ass and see what's around you it's time to
change think of what your missing it's time to change
get off your couch and shut off your tv so many things
to do and so much more to see no one lives forever so
what are you waiting for nothing gets done whining
and no one likes a bore
